microfilm made easy

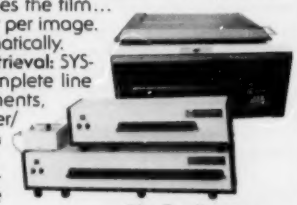
Camera / Processor

with SYSTEM 6100

Now there's an easy way to meet your microfilm needs...SYSTEM 6100. SYSTEM 6100 offers a complete line of reliable easy-to-use micrographic equipment, specifically designed for in-office use.

Camera/Processor: The SYSTEM 6100 Camera/Processor will photograph and process your documents continuously. The operator need only change documents and press the copy button while the camera/processor photographs, cuts, advances and processes the film... costing less than ½ cent per image. All in your office automatically.

File Maintenance & Retrieval: SYSTEM 6100 offers a complete line of microfilm components, including reader, reader/printer, inserter, film duplicator and more. Each component in SYSTEM 6100 is reliable and easy to use.



Film Duplicator

Inserter/Verifier
Reader
Reader Printer

For a FREE sample film strip and more information call toll free (800) 854-1761. In California (714) 593-2515 or use our reader service number.
